Turtle Rock Art

Grade 1 – Visual Art

Turtle Rock Art

Lesson Details

			1	
Grade Level: 1	Curriculum Links:	Visual Art, Science and Technology	Time Needed:	2 hours
Learning Goal	To artistically recreate an Ontario Turtle species, taking special note to paint the specific			
	characteristics.			
Success Criteria	By the end of this lesson, students will understand the characteristics of the 8 different			
	Ontario Turtle species and use art to create their own turtle rock.			
Specific	Visual Art – Elements of Design			
Expectations	Create two- and three-dimensional works of art that express feelings and ideas			
	inspired by personal experiences;			
	 Demonstrate an understanding of composition, using principles of design to 			
	create narrative artworks or art works on a theme or topic;			
	Use elements of design in art works to communicate ideas, messages, and			
	personal understandings;			
	Use a variety of materials, tools, and techniques to respond to design			
	challenges: drawing, mixed media, painting, printmaking, sculpture;			
	 Express their feelings and ideas about art works and art experiences; 			
	 Explain how explain how expla	elements and principles of design are us	sed to communica	ate
	meaning or u	nderstanding their own and other's art	work.	
	Science and Technolo	gy – Understanding Life Systems		
	 Identify the p 	physical characteristics of a variety of pl	ants and animals;	
	 Investigate ar 	nd compare the physical characteristics	of a variety of pla	ants and
		uding humans.		
Materials	Acrylic Paints, Paint B	Brushes, Rocks (clean), Waterproof Seal	er (optional).	
Needed		• • • • • • • • • • • • • • • • • • •	-	

Lesson Description

Overview	Students will paint rocks that resemble Ontario Turtles, using art expressions to show	
	the physical characteristics of each species. Then students will guess what species their	
	peers have painted.	
Activity	1. Find rocks to paint by either going on a walk as a group, or by asking the students	
	to find a rock in their neighbourhood to bring to school.	
	2. Discuss with the class the characteristics and distinct markings of the 8 different	
	species of Ontario Turtles. You may want to also show images of the turtles.	
	3. Have students choose their favourite turtle species, and paint their rock to look	
	like the turtle, to the best of their ability.	
	4. When dry, students can compare rock art creations, and using investigative skills,	
	try and determine which Ontario Turtle species their peers have painted.	
Background	Blanding's Turtle: Bright yellow neck, highly domed carapaces (upper shell), many	
Information	irregular radiation dots (small and discrete) on their shells, large black symmetrically	
	arranged scutes (triangular sections).	
	Painted Turtle: Red colouring underneath carapace and on neck, yellow stripes on face,	
	smooth carapace, pale plastron (under-shell).	
	Map Turtle: Carapace is green to olive-brown with thin brown-yellow lines that are	
	patterned and look like a "map" and is noted to have a thin ridge running along the	

Lesson Description

	centre from head to tail, small yellow spot is found behind its eyes.		
	Spotted Turtle : Black carapace that is sprinkled with a few larger yellow spots, spotting		
	on head and limbs, both sides of the head are marked by large orange spots that look		
	like ears.		
	Snapping Turtle : Rough brown-olive to dark green carapace, large thick legs and toes		
	with sharp claws, very small plastron, pointed jaw-tooth, rough ridges on tail and		
	carapace.		
	Spiny Softshell Turtle : Soft leathery speckled carapace, olive green to light frown yellow		
	in colour, long pig-like snout/nose.		
	Stinkpot Turtle : Tipped protruding and tiny nose, high domed carapace, light olive to		
	black in colour, their plastron is small and yellow-brown in colour.		
	Wood Turtle: Carapace has large sculpted scutes resembling irregular pyramids, the		
	shell looks like "wood", plastron is yellow with black spots, the skin of the neck and		
	forearms are reddish brown to bright orange.		
Blacklist Masters	Video Link(s): Ontario Turtle Identification		
	For more information, please visit https://www.turtleguardians.com/sample-		
	page/id-turtles/		
Place-Based	While collecting their supplies, students are asked to explore their local wildlife. Remind		
Learning	students to take only rocks, and to leave all other wildlife.		
Inquiry-Based	Using Open Inquiry , students will create their turtle rocks, and then investigate the		
Learning	rocks made by their peers to determine which of the Ontario Turtles the rock has been		
3	painted to look like.		
	Ask the students:		
	What do you know about turtles?		
	What does a turtle look like?		
Turtle Stories	Each species of turtle is different and carry their own unique set of characteristics.		
	Today you made a turtle from a rock, but can you make a turtle from any other		
	materials? Try making a turtle from only recyclables. Students are encouraged to share		
	their experiences and pictures on the Turtle Stories website, found here:		
	https://www.turtlestories.ca/		
Turtle Guardian	In Level 1 (Ontario Turtle Identification) of the Turtle Guardian Program, students will		
Program Links	learn how to identify all 8 species of Ontario's turtles. For more information, please visit		
	https://www.turtleguardians.com/what-is-a-turtle-guardian/
